Name of applicant	
Applicant's role	
Date of application (dd/mm/yyyy)	
Tournament/competition dates	

Please answer sections 1, 2 and 3 by ticking the Yes or No column. Any further information can be provided on Page 4.

1. APPROVAL CRITERIA FOR MATCH ORGANISERS

Tournament Organisers and Match Organisers wishing to access temporary replacement for head injury assessment (HIA) in games under their control must apply to World Rugby, confirming that:

Mandatory Player Welfare Standards		Yes	No
1	The Tournament or Matches in question are elite adult tournament or matches.		
2	The Core (mandatory) Concussion Player Welfare Standards outlined at Section 2 have been included in Terms of Participation or Tours Agreement documents signed by all participating unions or teams.		
3	They have facilitated the establishment of an HIA REVIEW PROCESS (HRP) that is in line with the process recommended and outlined in HIA Protocol document and Appendices		
4	They have facilitated access to video to assist with the management of head impact events occurring during games.

2. CORE (MANDATORY) CONCUSSION PLAYER WELFARE STANDARDS

The following player welfare standards relate to concussion and must be included within the Tournament Terms of Participation or Tours Agreement and signed by participating unions and/or teams in order to access temporary replacement for a Head Injury Assessment. Please indicate whether these provisions are in place.

Mandatory Player Welfare Standards		Yes	No
1	<p>All on-field team medical staff and Tournament match day medical staff have completed the following World Rugby online education modules:</p> <ul style="list-style-type: none"> • Concussion Management for Elite Level Match Day Medical Staff • Medical Protocols for Match Day Medical Staff <p>They must also have completed the following face-to face course:</p> <ul style="list-style-type: none"> • Level 2 Immediate Care in Rugby or equivalent <p>Confirmation of completion of education modules is available by contacting mark.harrington@worldrugby.org</p>		
2	All players and team management have completed a concussion education session (delivered by the Union CMO or relevant team doctor) within the year prior to commencement of the Tournament. This education session as a minimum must cover the essential information outlined in HIA Protocol document and Appendices		
3	Each player has completed a baseline concussion assessment in the year prior to commencement of the tournament and the results of this baseline are available to the team medical staff. As a minimum this baseline should be a SCAT 5 however it is recommended that teams also include a computer neurocognitive assessment as part of a player's annual baseline assessment.		
4	A concussion risk stratification (see HIA Protocol document and Appendices) has been completed on all players, at least annually, to support concussion management on an individual basis.		
5	All team medical staff, coaches and team management will comply with the World Rugby permanent and temporary removal from field of play criteria for head impact events (available in HIA Protocol document and Appendices and in the HIA Form 1).		
6	All team medical staff, coaches and team management will comply with a Graduated Return to Play programme as approved by World Rugby and/or the union in accordance with medical practice in the relevant jurisdiction.		
7	All teams within the respective tournament will participate in World Rugby HIA research and will confirm player consent has been obtained (HIA Protocol document and Appendices)		
8	All team staff acknowledge that an HIA REVIEW PROCESS has been established to support team medical staff to optimize player welfare and safety for game head injuries. Specifically for incidents where criteria, identified in the HIA, for permanent and temporary removal from play following a head injury are not enforced review and education will be applied. Also all team staff acknowledge that they will participate if requested in any HIA REVIEW PROCESS or if appropriate any disciplinary proceeding that may arise following this HIA REVIEW PROCESS .		
9	All team staff acknowledge that the Match Day Doctor has the power under Regulation 15.2.1(c) to unilaterally remove an injured player from further game participation.		
10	All teams agree to use the World Rugby current HIA Process, HIA Form 1, HIA Form 2 and HIA Form 3 during this temporary replacement for head injury unless exemption is provided by World Rugby.		

3. RECOMMENDED PLAYER WELFARE STANDARDS

The following union and team responsibilities are recommended and relate to concussion and other general medical issues and should be completed and included or referenced within each union's relevant medical policies, Tournament Terms of Participation or Tours Agreement and if included in these documents signed by participating unions and or teams.

Recommended standards - concussion		Yes	No
1	Unions should define within their Concussion Policy an "approved healthcare professional" as appropriate to their jurisdiction. This "approved healthcare professional" would be suitable for determining concussion return to play decisions .		
2	Unions should define, 'advanced level of concussion care', within their Concussion Policy. Advanced care allows for a more individualised management of concussion. This level of care is essential for all adult elite players wishing to start a return to play programme without a week of physical rest. A definition guide to this 'advanced level of concussion care' is provided in HIA Protocol document and Appendices		
Recommended standards - general medical issues		Yes	No
3	Unions prior to all tournament or matches should confirm that all players have been assessed by appropriate medical staff as being medically, dentally and physically fit to attend and participate in a tournament or match.		
4	Unions should confirm that each player has completed the World Rugby cardiac screening questionnaire and cardiac examination as described in the World Rugby Cardiac Screening document. Each tournament is responsible for deciding if an ECG should be part of this cardiac screening process.		
5	Confirmation that all team medical staff have completed: Keep Rugby Clean or equivalent, anti-doping educational module Keep Rugby Onside or equivalent, anti-corruption educational module
